Rules and terms

Context:

The European Dry Eye Society (EuDES), within the framework of the EuDES Meeting in Munich on June 2-3, 2023, organises a photo contest open to all EuDES members.

To highlight the importance of superior imaging techniques in dry eye medicine and diagnosing disease, we call for interesting and puzzling images.

Deadline:

Photos are to be sent by email to the Organising Committee: support-eudec@europa-organisation.com **by April 28, 2023.**

Participants:

Any contestant in the competition must be a registered EuDES member. Participation can be done individually or in team in case services, autonomous or inter-company branches want to participate under this form.

Terms of participation:

Only one photo, Black & White or Color, per participant (or group), accompanied by the entry form. Attendees will be notified in due time of the selection of their photo.

The photo must be **at least 2 MB** (more if possible) and not have been compressed. The organisers reserve the right to refuse any photo they deem disturbing, provocative, abusive, or discriminatory.

Participation in this contest implies abandonment for the benefit of the organisers and in particular of the EuDES, of its rights to the photograph, which may be reused or published, and exhibited in other places and at other occasions by them.

Framing of shooting methods:

No stolen photo.

The photograph must respect image rights (the "identifiable" patients it presents must be consenting and you must be able to justify it using the authorization of right to attached image).

Award:

The winner of the best picture will receive a complimentary invitation (travel, one night accommodation and free registration) to the EuDES Meeting 2023.

The best pictures will be displayed during the EuDES Meeting 2023.

All pictures will be posted on the EuDES website and social networks.
